'But you must be blindfolded.'

'Very well.'

'Step into this vehicle.'

'I am at your command.'

And away rattled the youthful soldier and his strange companion. 'This may be a trick,' reasoned Eugene Merville, 'but I have no fear of personal violence. I am armed with this trusty saber, and can take care of myself.' But there was no cause for fear since he soon found the vehicle stop; and

OFFICIAL PAPER OF THE CITY.

FRIDAY, OCT. 3, 1873.

## LOCAL NEWS.

"Articles" is good.

Wood and staves are in active demand.

This has been a good day to sell hay by weight.

A hardy gaily was one of the victims of spirit on Tuesday.

Sheriff Carl is still in great tribulation on account of the rheumatism.

The foliage of the trees on the other side of the lake is turning identically red.

Dr. Millard is confined to his room by an attack of bilious fever. Hope it will be of short duration.

Will not some one put a piece of putty in the crack in the bell on the Central school building?

The Nellie Kent is doing a big freight business, and on account of this and low water she is unable to make regular trips to Taylor's Falls.

The Sealow hauled off from the Taylor's Falls trade recently, the business being insufficient to pay expenses. She will start down river with a raft next week.

The county equalizing board met on Monday, and after examining the Assessors' returns decided to increase the value of horses 5 per cent, in Stillwater and 10 per cent in Baytown, and reduce their value 5 per cent, in Cottage Grove and Newport.

Catchin bar, on Lake St. Croix, opposite Alton, which is a serious obstruction to navigation during low water, is to be partially excavated in a week or two days. The government dredge boat Montana has been ordered to tackle this bar.

The Stillwater Grange of the Patrons of Husbandry is making arrangements for a banquet at their hall on Saturday next week, of which only members of this Grange and their families can partake. We predict that each member will have a large banquet on this occasion, for these banquets have a splendid reputation with the initiated.

A "back pay" demonstration took place on Main street a few days ago. Several of the workmen employed by the subcontractors on the new school house, being unable to obtain some back pay due them quit work and contemplated filing a lien on the building, but found that it wouldn't pay. The work on the school building is not retarded, however, by this strike.

There was the usual scene at the Postoffice on Wednesday that is witnessed the first day of every quarter. A large number of persons who had not paid their letters and postage in advance were not put in their boxes. But when these men consider that the Postmaster is expressly forbidden to give papers until the postage is prepaid, they will probably feel better-natured.

We frequently see men who ought to know better loitering on the sidewalks and street corners, so closely huddled together that lady pedestrians are unable to pass without stepping out, into the muddy street. Of course when a policeman is near this doesn't often occur, but a policeman can't be stationed at every street crossing. If there is no ordinance prescribing a penalty for this species of nuisance there should be, and it should be rigidly enforced, even though scores of loafers consider "seven and a-half" to be the city treasury.

More attention has been given to the improvement of streets this year than during any former year since our city was incorporated. The work has been well done, and though the expenses have been heavy, the increased value of the property benefited by these improvements will more than make up the balance necessary to carry out the work. These improvements have been made while all classes have been suffering on account of the unusual scarcity of money, speaks well for the enterprise of our property owners and their faith in the stability of our city.

The price of wheat is looking up a little, and buyers are more encouraged. It is probable prices will not get up to the old figures for some time, but the demand for wheat is just as great as ever, and there is just as much money as ever for purchasing it. It is therefore to be hoped that a time with greater care than usual. Yesterday shippers were paying 80 cents, and millers 85 cents, though both are still offered.

The market for lumber is still more hopeful, on account of an improved feeling in Milwaukee. 85 cents is the highest price offered, but it is thought the price will advance to 90 cents in a day or two, and will approach \$1.00 within ten days.

Nick George is employed at the St. Croix mills, and is ordinarily industrious and economical. But last Tuesday evening after supper he went out to "make a little fun out of boys" and in the course of the evening indulged in capricious draughts of liquor and whisky. At a late hour he "turned in" in the mill dormitory, but he "felt so jolly happy" that he could not go to sleep, and kept the other occupants of the building awake by his unmonstrous hilarity. At last one of the boys went out and got a policeman to come up and invite Nick to change his quarters. A bed was found for him in a little frame building on Nelson street and the next morning Mr. Van Vleck charged him "seven and a-half" for his lodging and breakfast. Nick hadn't the wherewithal, but when he found that unless he liquidated that little bill without delay he would have to "go and sit out" at a dollar a day, he took John Lyons with him and called on Mr. Clark for a loan of the necessary amount. The money was obtained and paid over, but the "seven and a-half" were not to be compared with Nick's sorrows as he pined over. The time which passed during his checks, not his mouth and on the ground, over his melted a heart of granite.

## ASCENSION CHURCH.

Laying the Corner Stone.

The formal ceremony of laying the corner stone of the new church edifice being erected by Ascension Parish took place yesterday afternoon, in the presence of a large number of spectators.

At 12 o'clock the members of the congregation, together with several clergymen from abroad and a few invited guests, assembled at the dining room connected with the hotel, where a tempting collation was spread, of which they freely partook. At 1 o'clock a procession was formed in the following order: First, Stillwater Cornet Band; second, Vestry; third, Clergymen; fourth, citizens. The procession marched up Chestnut street to Third; up Third to the residence of Richard Farmer, where the clergyman, monied their services; thence to the site of the church on the opposite side of the street. The Vestry and clergy then mounted a platform prepared for the occasion, when Rev. Mr. Wells of Red Wing offered the opening prayer, after which Bishop's Hymn was played by the band.

It was expected that the ceremony which followed, but this gentleman was unable to be present, and Rev. E. S. Thomas of Minneapolis was selected to take his place. The ceremony of laying the corner stone was then performed in the manner prescribed by the Prayer Book, after which Mr. Thomas delivered a brief but eloquent and very appropriate address which was listened to with much interest.

The following articles were placed in a box and deposited in the corner stone:

1. A copy of the Holy Scriptures.

2. A copy of Book of Common Prayer.

3. Journal of the 15th Annual Council of Minnesota.

4. Church Almanac for 1873.

5. The Churchman.

6. St. Paul Pioneer and Press.

7. Stillwater Messenger and Gazette.

8. List of names of Vestrymen.

9. Officers of Parish Aid Society.

10. List of Sunday School Teachers.

11. Names of Architects and Contractors.

The following named Episcopal clergymen were present on this occasion: Rev. E. S. Thomas of Minneapolis, Rev. W. A. Johnson, of Cottage Grove, Mr. Tanner of Owatonna, Mr. Chandler of Fairbault, and Mr. W. J. Johnston, Rector.

At the close of Mr. Johnston's address, the Rector, Rev. W. A. Johnson, offered the closing prayer, after which the procession reformed and returned to the hotel, where they dispersed.

The edifice now under construction is 70 feet wide by 120 feet deep, including nave and vestry. Seymour, Sabin & Co. have the contract for the work, and it is to be enclosed the present season and completed ready for occupancy by the first of June next.

The church in which this parish now worships was built some 22 years ago.

Our mill men are getting large quantities of lumber piled up in their yards, and the amount promises to be largely increased before the season closes. Dry lumber can always be sold at good figures, so our mill owners will reap a rich harvest next season, especially if there should be a light crop of logs next spring.

**New Millinery Store.**

Mrs. A. C. Jacobs has made preparations for opening a new millinery store in Edinboro's block, over Knoffman's drug store, corner Main and Chestnut streets. She has gone East for goods, and expects to return early next week with a full stock.

Petitions were being circulated in this city and elsewhere on the St. Croix and Mississippi rivers, asking the Secretary of War to remove the north pier of the old railroad bridge between Rock Island and Davenport.

This pier renders the passage of rafts under the new bridge difficult and was incorporated. The work has been well done, and though the expenses have been heavy, the increased value of the property benefited by these improvements will more than make up the balance necessary to carry out the work. These improvements have been made while all classes have been suffering on account of the unusual scarcity of money, speaks well for the enterprise of our property owners and their faith in the stability of our city.

**Accident to D. H. Hersey.**

On Thursday afternoon of last week D. H. Hersey of this city and Win. Maxwell of St. Paul were crossing the St. Paul and Northern Pacific bridge, behind a high-speed team belonging to the latter, when one of the straps broke, allowing the pole to escape from the neck-yoke. The horses at once became frightened and started off at a furious rate, when Mr. Hersey thought to save himself by leaping out, but unfortunately his left leg caught in the spokes of one of the wheels, causing the fracture of both bones. The young Maxwell stuck to the reins for some time, but was at last thrown out and picked up in an insensible condition.

Mr. Hersey was taken to the Metropolitan and Dr. Murphy of St. Paul and Dr. Millard of this place summoned. His injuries were very severe, but with a good constitution and previous good habits he has commenced recovering and is considered out of danger. It was feared for a time that amputation would be necessary, but this danger is believed to be past.

**Installation.**

Rev. Jas. A. McGowan was installed pastor of the Second Presbyterian church on Wednesday evening by a committee appointed for the purpose by the Presbytery. Rev. I. N. Otis of the First church officiated as Moderator, and opened the services by reading the first hymn, after which Rev. J. P. Wetton of Hastings read a selection of Scripture and offered the opening prayer. The installation sermon was delivered by Rev. J. G. Lyon, it being a very fine address. At its close the Moderator conducted the installation ceremonies, after which Mr. Wetton delivered the charge to the people, followed by a charge to the people by Mr. Lyon. At the conclusion of these services the benediction was pronounced by the newly installed pastor.

**Crystal Wedding.**

Last Saturday being the fifteenth anniversary of the marriage of Mr. and Mrs. Wm. M. McCler, their friends to the number of fifty or more decided on holding a crystal wedding at the present time.

The presents were numerous and of great variety. A pleasant time was enjoyed by all present.

## Logs and Lumber.

With the exception of a recent sale of four rafts of logs sold by Dunsmuir, Wheeler & Clinton and Cat Tail Slough, and five strings sold by Jas. S. Anderson to Youmans Bros. & Hodge, Winona, we know of no transactions in logs.

We have a sale of one raft of say a million feet of sawed lumber, will run by the St. Croix Lumber Company, to A. Boeckeler & Co., St. Paul, but did not learn the figures paid.

In view of the near approach of winter, together with an unsettled winter market, the probabilities are that the lumber trade of the St. Croix Valley for the season of 1873 is about over. A few rafts are now going forward, but for the winter in the lake at St. Croix Landing and in Cat Tail Slough.

It is estimated that there is or will be left over for the winter from fifteen to twenty million feet of logs below the main boom, aside from the stock intended for sawing at our own mills, while of logs lying above the boom there must be fully as much more, that will be run in on the opening of navigation.

Shipments include, per Minnesota, one hundred raft for Schulz & Co., St. Louis; per Louisville, one log raft, Durant & Wheeler, Cat Tail Slough; per Wyanan X, one log raft, Torinus, Staples & Co., for sale, and one log raft, Walker, Juhl & Yeasie, Winona; the Minnesota and Louisville are in port and will leave to morrow with logs and lumber to lay up for the winter at Reed's Landing.

The water at Prescott has risen eight feet, with a corresponding rise at Reed's Landing. Boats report "three feet large" in the channel from Winona to Prescott, with the shallowest water at Betsy Slough.

The pile-dam placed in the Mississippi at Pig's Eye bar by the government steamer Montana gives boats three feet of water from Hastings to St. Paul.

## Off the Track.

About half-past 9 o'clock this forenoon an accident occurred in the yard of the Northern Pacific, which almost resulted in sending engine No. 103 into the lake.

It being near the time for the arrival of the morning train from St. Paul, the switch had been placed on the main track, but while the engineer of No. 103 was in the depot making his report the fireman without orders and apparently without reason started the engine up the track attached to a number of box cars on one of the side tracks. When within a short distance of the switch the engine was not stopped, but before the train could be stopped the engine and front wheels of the tender had got off the track, and in an instant more would have been off the platform.

The accident causes some trouble, as the disabled engine is on the main track, some distance from the depot, at the first bridge. A large force of men is busily engaged in getting it to position again, and it is hoped the track will be cleared by dark.

That fireman is anxious to obtain another situation.
